About Me

I am a Frontend Developer with experience in creating responsive interfaces and web performance optimization. Passionate about improving user experience through scalable and efficient solutions. I am looking for new challenges in developing modern applications with technologies such as React, Next.js and JavaScript.

Experience

GETOUT STUDIO (2024)

- optimization of the video game studio's web interface.
- Use of React, Tailwind CSS, figma and Agile methodologies.

PEPOLA STUDIO (2024)

- web design integration of the video game studio
- Use of React, CSS, API and Agile methodologies.

Visdan Agency(2024 - present)

- Implementation of responsive designs for clients in the digital marketing sector.
- I work with JavaScript, Tailwind CSS, Next.js and Figma to optimize designs.

Education

CoderHouse(2022 - 2023)

- Frontend Developer (Knowledge of programming languages frameworks and Apis)

UX/UI Design (2024 - Now)

- Prototyping in Figma and improving user experience.
